## INTRODUCTION

This report presents distributions of population by age groups and sex according to the 1961 Census of Canada. Also, for comparative purposes, five-year age groups and sex are shown for Canada and the provinces back to 1901.

Age classifications in the census are based on a definition which specifies completed years of age at last birthday. In the 1961 Census, this refers to the person's age at last birthday prior to June 1, 1961.

The statement below shows the numerical and percentage distribution and increase by age groups and sex for the 1951-61 period.

Le présent rapport répartit la population selon le groupe d'âge et le sexe d'après les données du recensement du Canada de 1961. Il donne aussi, pour fins de comparaison, la répartition de la population du Canada et des provinces par groupe quinquennal d'âge et selon le sexe à compter de 1901.

Le recensement établit les catégories d'âge en fonction des années révolues d'âge au dernier anniversaire de naissance. Au recensement de 1961, l'âge d'une personne était arrêté au dernier anniversaire de naissance qui précédait le 1er juin 1961.

L'exposé ci-après donne la répartition et l'augmentation numériques et procentuelles des groupes d'âge par sexe de 1951 à 1961.
